## **P R E F A C E**

The legislature has constitutional mandate to conduct oversight and hold the executive accountable for using public resources. It employs various tools to effectively assess, monitor and evaluate the performance of the executive machinery with regard to the implementation of government policies and utilization of public money. One of the most important tool for oversight of the financial operations of government is a specialized committee known as the Public Accounts Committee. In many commonwealth countries, it is the oldest parliamentary committee and occupies quite a heightened status over other committees in the legislature. The importance of Public Accounts Committee as the legislative apex of financial oversight and scrutiny has long been recognized. Over the time, the Public Accounts Committee has evolved as the most critical legislative tool to ensure that there is effective, efficient and economical use of public funds; promote transparency and accountability in the use of public resources and to ensure that public funds are spent in order to benefit the public

According to Article 171 of the Constitution of Islamic Republic of Pakistan, the Report of the Auditor General relating to the accounts of the Province are submitted to the Governor, who causes them to be laid before the Provincial Assembly. The Reports of Auditor General, so laid in the Provincial Assembly are referred to the Public Accounts Committee under provisions of Rule 177 of the Rules of Procedure of the Provincial Assembly of the Punjab, for consideration. As such, Public Accounts Committee is one of the statutory organs of the Provincial Assembly of the Punjab.

The present Public Accounts Committee-II was constituted on 13 December 2013. The Appropriation Accounts, Financial Statements and Audit Reports for the year 2011-12 were laid in the Provincial Assembly of the Punjab and referred to PAC-II. The Committee considered the report in a series of 48 meetings. The Chairman and the Members unequivocally bent their diverse experience, expertise and dedications for expeditious completion of the work in hand. The visionary, innovative and inspirational personality of Dr Mukhtar Ahmad Bharath has been an undeniable peculiarity of the present Public Accounts Committee-II.

I would take this space to express my resolute commitment to serve and assist the legislature in performing the onerous task of law making, executive oversight and representation. Therefore, the Secretariat of Provincial Assembly has initiated a comprehensive program to capacitate the support staff and members of the Committee in order to achieve the utmost out of their roles. It is equally pertinent to acknowledge that the compilation, proof reading and finalization of this Report could become concrete due to the resolute and focused efforts of officers/staff of the Public Accounts Committee-II of the Provincial Assembly Secretariat.

## INTRODUCTION

Public money, in democratic countries, cannot be spent nor can taxes be raised without first seeking the explicit consent of the Legislature. Parliamentary engagement with the financial matters of Government, normally has several stages. First, parliament votes public moneys, then, it might monitor budget execution, finally, parliament has to consider whether funds have been spent for the service or purpose specified by the authorization. One of the most important tools that a legislature has for oversight of the financial operations of government is a specialized committee. In the “Westminster model” of democracy, the committee is known as the Public Accounts Committee

The Public Accounts Committee is the core institution of financial accountability. It is the only channel through which the Parliament can directly examine the ministries/government departments about their management of public resources and financial operations. The Public Accounts Committee plays a key role to ensure accountability and transparency in the way Government agencies spend and manage their finances. Lord Hennessy described the Public Accounts Committee as:

*"the queen of the select committees...[which]...by its very existence exerted a cleansing effect in all government departments"*

Following the general elections 2013, the Public Accounts Committee-II was constituted by the Provincial Assembly of the Punjab on 13 December 2013. The Committee first finalized its deliberations/recommendations on Audit Report 2009-10 and then decided to take up the consideration of Appropriation Accounts and Audit Report for the year 2011-12 w.e.f 24.09.2014. The report was examined in a series of 48 meetings while a Monitoring & Implementation Sub-Committee was also appointed to review the follow up action on compliance of its directions/recommendations. This report of Public Accounts Committee-II on the Appropriation Accounts and Audit Report for the year 2011-12 comprises the deliberations and recommendations recorded in the minutes of the meetings, and is presented to the House in terms of rule 178 read with rule 166(2)(C) of the Rules of Procedure of the Provincial Assembly of the Punjab 1997.

During consideration of its business, the Public Account Committee issued various directives to the Administrative Departments as well as Audit which have been incorporated in the minutes of meetings as reproduced in this report. It is hoped that attention would be paid to identifying the lessons learnt from this exercise and the process should lead to appropriate reforms in organizational set-ups and procedures for direction and control. In order to create a productive and effective working atmosphere, the Committee suggests that Government should particularly take note of the following observations/recommendations:-

- The parliamentary oversight demands strong support and responsiveness from the government, therefore, SOPs be devised by the Government for follow-up action on recommendations of PAC. Each Department should appoint a Liaison Officer for PAC who must consistently pursue the field formations to ensure timely action on the recommendations of PAC.

- Each and every Institution/Department funded by public exchequer to deliver public services should be subject to the Auditor General's audit mandate in respect of those services and as such, be accountable to the PAC.
- Specially structured training should be provided to the Drawing & Disbursing Officers and regular mechanism for the purpose be devised by the Finance Department
- measures should be taken to curb the practices involving non-utilization of machinery/equipment procured in the Health Institutions as well as newly constructed office buildings

The Committee would like to acknowledge and appreciate the hard work put in by the staff of the Assembly Secretariat for consideration of the Appropriation Accounts & Audit Report 2011-12 by the Public Accounts Committee and for preparation of this report.
